TEST REPORT

Report reference No.....	:	M2603405WY-R0286
Tested by..... (printed name and signature)	:	(Project Engineer)
Approved by ..... (printed name and signature)	:	(Reviewer)
Date of issue.....	:	Mar. 30, 2026
Testing laboratory	:	Shenzhen Meiou Testing Technology Co., Ltd
Address.....	:	301, Building A2, Huafa Industrial Park, Fuyuan 1st Road, Zhancheng Community, Fuhai Street, Bao' an District, Shenzhen, Guangdong, China
Applicant.....	:	Guangzhou Yunchuang Intelligent Equipment Co., Ltd.
Address.....	:	Room 305, Yaju Center, Yayo Town, Huadu District, Guangzhou City
Manufacturer.....	:	Guangzhou Yunchuang Intelligent Equipment Co., Ltd.
Address.....	:	Room 305, Yaju Center, Yayo Town, Huadu District, Guangzhou City
Standards.....	:	EN 62479:2010
Test Procedure	:	Health Test Report
Non-standard test method.....	:	N/A
Type of test equipment	:	Vending machine
Trade mark.....	:	N/A
Model/Type designation.....	:	XHJ, FYJ, SHJ, TS, YC
Rating.....	:	Input: 220Vac, 10A
Test Date.....	:	2026-03-24 to 2026-03-30
Test Results.....	:	PASS

This test report is limited to the above client company and the product model only. The results shown in this Test Report refer only to the sample(s) tested unless otherwise stated and such sample(s) are retained for 30 days only. It may not be duplicated without prior written consent of Shenzhen Meiou Testing Technology Co., Ltd.

1. GENERAL INFORMATION

1.1 Description of Device (EUT)

EUT Name	:	Vending machine
Brand Name	:	N/A
Model No.	:	XHJ, FYJ, SHJ, TS, YC
Model Difference	:	All the models are the same, only the model name and appearance.
Power supply	:	Input: 220Vac, 10A
Operation frequency	:	50/60KHz
Modulation	:	GFSK
Antenna Type	:	PCB antenna(1.0dBi)
Hardware Version	:	---
Software Version	:	---
Firmware	:	---
Intend use environment	:	Residential, commercial and light industrial environment
Test Result	:	This device described above has been tested by you best, and the test results show that the equipment under test (EUT) is in compliance with the 2014/53/EU RED Directive Art.3.1(a) requirements.

Note:

(1) For a more detailed features description, please refer to the manufacturer's specifications or the User's Manual.

1.2 TEST FACILITY

Site Description

Name of Firm	:	Shenzhen Meiou Testing Technology Co., Ltd
Site Location	:	301, Building A2, Huafa Industrial Park, Fuyuan 1st Road, Zhancheng Community, Fuhai Street, Bao'an District, Shenzhen, Guangdong, China

This test report is limited to the above client company and the product model only. The results shown in this Test Report refer only to the sample(s) tested unless otherwise stated and such sample(s) are retained for 30 days only. It may not be duplicated without prior written consent of Shenzhen Meiou Testing Technology Co., Ltd.

2. REQUIREMENT

2.1 GENERAL INFORMATION

According to its specifications, the EUT must comply with the requirements of the following standards:
EN 62479: 2010 [Assessment of the compliance of low power electronic and electrical equipment with the basic restrictions related to human exposure to electromagnetic fields (10 MHz to 300 GHz)]

2.2 LIMIT

A. Typical usage, installation and the physical characteristics of equipment make it inherently compliant with the applicable EMF exposure levels such as those listed in the bibliography. This low-power equipment includes unintentional (or non-intentional) radiators, for example incandescent light bulbs and audio/visual (A/V) equipment, information technology equipment (ITE) and multimedia equipment (MME) that does not contain radio transmitters.
NOTE Equipment is described as A/V equipment, ITE or MME if its main use is playback/recording of music, voice or images, or processing of digital information.
B. The input power level to electrical or electronic components that are capable of radiating electromagnetic energy in the relevant frequency range is so low that the available antenna power and/or the average total radiated power cannot exceed the low-power exclusion level defined in 4.2.
C. The available antenna power and/or the average total radiated power are limited by product standards for transmitters to levels below the low-power exclusion level defined in 4.2.
D. Measurements or calculations show that the available antenna power and/or the average total radiated power are below the low-power exclusion level defined in 4.2.

2.3 RESULT

The available antenna power of this EUT is 3.767mW(81.43dBuA/m), the power are below the low-power exclusion level defined in 4.2(Pmax: 20mW).”

This test report is limited to the above client company and the product model only. The results shown in this Test Report refer only to the sample(s) tested unless otherwise stated and such sample(s) are retained for 30 days only. It may not be duplicated without prior written consent of Shenzhen Meiou Testing Technology Co., Ltd.

3. PHOTOGRAPHS OF EUT

— End of report —

This test report is limited to the above client company and the product model only. The results shown in this Test Report refer only to the sample(s) tested unless otherwise stated and such sample(s) are retained for 30 days only. It may not be duplicated without prior written consent of Shenzhen Meiou Testing Technology Co., Ltd.

Statement:

1. The information as listed on the first page of this test report was all provided by the client except the sample from, date received, test period, test results and test conclusion. The client shall be responsible for the representativeness of sample and authenticity of materials, for which MEIOU shall bear no responsibilities.
2. The judgment method of determining the conformity in this test report is according to the measured value without considering the risk caused by uncertainty, unless otherwise clearly stipulated in special agreement, standard or specification. The client shall assume the risk caused by the judgment method, and MEIOU shall not bear related responsibilities.
3. The test report is effective only with both signature and specialized stamp. Without written approval of MEIOU, this report can't be reproduced in full or in part.
4. This test data is only responsible for the tested sample.
5. The test result only used for client's requirement, scientific researching ,teaching or internal quality control.

This test report is limited to the above client company and the product model only. The results shown in this Test Report refer only to the sample(s) tested unless otherwise stated and such sample(s) are retained for 30 days only. It may not be duplicated without prior written consent of Shenzhen Meiou Testing Technology Co., Ltd.
